

EH1415

**Bébé Mayor Ultrasonic Humidifier
with 2.5 L Water Tank**

User Manual

Please retain for future reference

IMPORTANT

Installer and Users please note:

These instructions should be read carefully and left with the user of the product for future reference. Before use please inspect the product including its cable and plug for any signs of damage. If the product is damaged, DO NOT use it, and contact your supplier immediately.

OPERATING INSTRUCTIONS

1. Place the humidifier on a flat surface, about 60cm away from the floor and 10cm away from the wall. We recommend you do not place the humidifier directly on to wooden furniture.
2. Remove the water tank by lifting the moisture outlet, holding the handle and lifting up. (See figure 1)
3. Remove the tank cap from the bottom of the tank by turning clockwise. Fill the water tank with cool, fresh water. Do not fill with warm water as this can cause the unit to leak.
4. When the tank is full replace the tank cap and place the tank back onto the base. The water will begin to flow from the tank into the base.
5. Plug the power cord into the electrical outlet.
6. Press the control knob to turn the humidifier on. Turning the control knob clockwise will increase the amount of mist produced.
7. In standard operating mode the indicator light will be green, if the light turns red this means that the unit needs more water. (see steps 1-4 for refilling the tank)

OPERATING COSTS

At time of going to press, the average cost of electricity is £0.13 per unit (kilowatt-hour). The amount you are being charged will be shown on your electricity bill. At this cost, the EH1415 will cost 7.4p per day to run.

PAT TESTING

When used in an office environment, we recommend that this product should be safety-tested yearly by a qualified electrician (PAT Tested).

We recommend that it is PAT tested regularly when used in a domestic environment.

GENERAL SAFETY REQUIREMENTS

Domestic wiring must be tested periodically by a qualified electrician at least once every 10 years or at every change of occupancy.

For office and retail premises, and buildings such as village halls, the wiring must be inspected at least once every 5 years.

It is recommended that all building be fitted with smoke alarms (it is mandatory for new buildings).

DISPOSAL AND RECYCLING

You must not dispose of this appliance with domestic household waste.

Most local authorities have a specific collection system for appliances and disposal is free of charge to the end-user.

When replacing an existing appliance with a similar new appliance your retailer may take the old appliance for disposal.

PRODUCT SAFETY

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children must not play with the appliance.
- Cleaning and user maintenance shall not be made by children without supervision.
- When attached to the base unit the appliance must be placed on a firm flat surface.
- Do not use in close proximity to gas appliances
- Do not use unless correctly installed.
- Do not cover when in use.
- Do not place the mains lead beneath a carpet or rug.
- This unit is not suitable for use in cars, caravans, boats or other similar locations.
- Do not use the appliance in locations where paint, petrol or other flammable liquids are used or stored.
- Do not use this appliance in the immediate surroundings of a bath, a shower or a swimming pool.
- Do not use the humidifier in a confined space.
- This unit is supplied with a short power cord to help reduce tripping hazards. An extension cord may be used if a longer cord run is needed. The rating of the extension cord must be equal to or greater than the rating of the dehumidifier. The cord should not be allowed to overhang the edge of the surface it is placed on to help prevent children from pulling the cord and tripping hazards.

MAINTENANCE

Please follow all maintenance and care instructions carefully.

DAILY MAINTENANCE

1. Unplug the humidifier from the electrical outlet.
2. Remove the water tank by lifting the moisture outlet, holding the handle and lifting up.
(See figure 1 on previous page).
3. Remove the tank cap from the bottom of the tank by turning clockwise.
4. Empty any water from the tank and rinse the tank to remove any sediment or dirt.
5. Dry the tank with a soft cloth or paper towel.
6. Refill the tank with cool, fresh water and replace the tank back onto the base.

WEEKLY MAINTENANCE

1. Repeat steps 1-4 of the weekly maintenance process (see above).
2. Fill the base of the unit with one cup of white vinegar and leave for 15 minutes.
3. Empty the white vinegar out of the base and remove any limescale or residue with a soft brush.
4. Dry the base with a soft cloth or paper towel.

CAUTION

- Do not submerge the unit in water or place under running water.
- Do not use any solvents, cleaning agents or abrasive pads/cloths to clean any parts of the unit.
- Use only a soft brush or cloth when cleaning any part of the unit.
- Do not leave water to stand in the tank for more than one week.

STORAGE

- Perform the weekly maintenance process (see above) before the unit is put away for storage.
- Wherever possible the unit should be stored in its original packaging.
- Store the unit in a cool, dry place.

TROUBLESHOOTING

If you experience any problems with your new humidifier, there may be a simple solution.

ISSUE	POSSIBLE CAUSE(S)	SOLUTION

The indicator light is red and no mist is produced.	There is no water in the tank.	Fill the tank with water as per operating instructions.
The mist has a strange/unpleasant smell.	The unit is being used for the first time.	Empty the water tank and leave it in a cool place for 12 hours.
	The tank has been filled with dirty water or the water has been left in the tank for too long.	Empty the water tank, clean and refill with cool, fresh water as per maintenance instructions.
The power light is green but no mist is produced.	Too much water in the tank.	Empty some of the water from the tank.
The mist output volume is low.	The transducer is dirty.	Clean base unit with white vinegar as per operating instructions.
	The tank has been filled with dirty water or the water has been left in the tank for too long.	Empty the water tank, clean and refill with cool, fresh water as per maintenance instructions.
The unit is making a strange noise.	The water level is too low.	Fill the tank with water as per operating instructions.
	The unit has been placed on an unlevel surface.	Place the unit to a level surface.
The tank cap is very tight.	The tank cap has been overtightened.	Remove the cap and add a small amount of liquid soap to the cap gasket to lubricate.

TECHNICAL SPECIFICATION

Power Supply	Input: 100V-240V~ Output: 24Vdc
Humidifier Capacity	200 ml/h
Water Tank Volume.....	2.5l
Power.....	24W
Dimensions	280 x 141 x 141 mm
Weight	0.8kg
Coverage Area	20 m ²

SERVICE WARRANTY

Prem-i-Air guarantees the product free from defects in materials and workmanship for a period of twelve months.

Should this appliance be operated under conditions other than those recommended, at voltages other than the voltage indicated on the appliance, or any attempts are made to service or modify the appliance, then the warranty will be rendered void.

The product you buy may sometimes differ slightly from illustrations. This warranty is in addition to, and does not affect, your statutory rights.

Our guarantee is administered by our retailers.

If your product arrives damaged, you must contact the retailer from whom you bought it. The retailer's contact details will be on the invoice that arrived with the product, or on the e-mail you received when you placed the order. Do not contact Prem-i-air, only your retailer can arrange a replacement.

If your product fails within the guarantee period, firstly read the "troubleshooting" section of this manual. Temperature and weather conditions can affect the performance of certain products. If the product needs to be repaired or replaced, you must contact the retailer from whom you bought it.

The retailer's contact details will be on the invoice that arrived with the product, or on the e-mail you received when you placed the order.

If you have just received your product and require technical help in using it, please call our Help Desk on (0845) 459 4816.

If you have any other technical queries about the product, please call our Help Desk on (0845) 459 4816.
